SJS French Group Wins Acclaim at Model U.N.

By JOANNE WILSON

Through smoke-filled caucuses, amid much log-rolling, backslapping and general lobbying San Jose State college's French delegation provided impressive opposition for the Stanford's Russian delegation at the model United Nations held Thursday, Friday and Saturday at Stanford university. "Better informed than any other delegation at the assembly except Stanford's Russian delegation," was the praise awarded to the San Jose group, reported their adviser Dr. George Bruntz. "We were consulted by delegations, including the United States and Egypt, for advice on resolutions," Bruntz said.

Douglass Visits College Heads

Dr. Aubrey A. Douglass, associate state superintendent of public instruction, met on campus yesterday with San Jose State college heads to discuss administrative and engineering programs.

He conferred with Dr. T. W. MacQuarrie, college president, and members of his council from 10:30 a.m. until noon, concerning revisions of the college catalog.

Preparation of a statement on state college programs in engineering was the topic of Dr. Douglass' talk with Dr. Ralph J. Smith, head of the engineering department. The statement will be presented to a meeting of state college and University of California representatives in Los Angeles on May 11.

Wanted: Coins And Ugly Men

Man, yo' ugly. Do your friends shy at your decayed molars, balding head, pimply face? They do?

Retaliate, slaves! Throw off the chains! Become a member of that exclusive fraternity at San Jose State college, SFPOTNOUM. In the vernacular it is The Society For The Prevention Of The Non-Existence Of Ugly Men.

The Campus Chest, in an effort to raise funds for the World Student Service fund, are out searching for males of the species that combine the rare qualities of ugliness and human features.

Nominations for the ugly man on campus are now being accepted in the ASB office of the Student Union. Deadline for filing has been set for May 5 at 1 p.m., according to Carol Paige, publicity chairman.

Organizations that wish to sponsor or co-sponsor a candidate are eligible to do so.

It will cost a penny a vote to support your dream man and you can vote as many times as you wish. The winner of the voting will be crowned amid pork and beans at a WSSF rally and bean feed on May 10. Voting will be conducted in the inner quad. The contest will run from May 7-10.

DR. GEORGE BRUNTZ, adviser of the International Relations club, points to a diagram of the United Nations councils while discussing with the delegates the model UN, which was held at Stanford university Thursday, Friday and Saturday. Left to right are delegates Maurice Duke, Larea Gabriel, Ann Buitrago, Dr. Bruntz, Jim Moore, Doris Fields and Tom Cameron.

Spears Offer Good Buys at Sale Today

"You can just about name your own price in buying things at the rummage sale today," says Spartan Spear Joey Baldwin. "Girls can get nice compacts and wallets for 25c and most of our small items sell for less than 50c. The fellows and girls both will be interested in some of the coats and jackets we have."

The Spears booth is right in front of the Morris Dailey auditorium and the sale is in full swing. The articles being rummaged off are things turned in to the Lost and Found office that were not claimed. According to the Information office there is everything from "pills to poils."

The annual Spartan Spears rummage sale is one of the highlights of this service organization's yearly activities and the girls in yellow blouses and white skirts are remembered for their participation in other college affairs. The girls sold coffee and doughnuts on registration day and also maintained an information booth. They worked at the booths during the Chapel drive and the Campus Chest drive and ushered at March Melodies.

The Spears were organized by a group on campus who became interested in forming a service organization, and hence came their motto, "At Your Service." President of the organization is Ingrid Anderson and Mrs. Alston H. Hagerty is their adviser.

The Weather

Phil Phogbound, philosopher, glanced again at the U.P. weather report, hurriedly took a reading on the barometer, shot the sun with his sextant, leafed through his almanac and read three pertinent paragraphs in Gundelfinger's Primer for Beginning Weather Prophets, before calling his valet and faithful friend, Kato, to his side.

In answer to the arched eyebrows, the stoic oriental said: "Rain! There was a ring around the moon last night."

Doris Fields, Betsy Wallick, Richard Robb, Dolores McDonald, Larea Gabriel, Charles Benson, Jim Moore, Julie Alger, Ann Droubay, Robert Cross, and Fred Brown.

Universal Fees Could Aid SJS

"Stability of student body finances would be one of the chief advantages of a compulsory student body card," said Mr. Bill Felse, San Jose State college's graduate manager, yesterday.

"The way things are now, budgets are brought out in October and we can't possibly allocate funds with any certainty to the student organizations," Felse said.

UP ROUNDUP

Ask 40½ Billion For Military

WASHINGTON. — President Truman yesterday asked Congress to approve \$40½ billion for military spending during the 1952 fiscal year to help prevent "another and more frightful global war." The proposed funds would permit maintaining and equipping an armed force of 3,500,000 men during the 1952 fiscal year.

California Guard in Japan
SENDAI, Japan. — The 40th Infantry division, California National Guard unit, has completed its "settling-in" period and resumed training yesterday. Many of the Guardsmen interrupted their training to help put out a fire which destroyed a kitchen and mess hall belonging to the 223rd Infantry regiment.

Consider Bridge Buying
SACRAMENTO. — Possible state purchase of the San Mateo-Hayward and Dumbarton toll bridges, which cross lower San Francisco bay, will be considered at a California Toll Bridge Authority meeting on May 10. Public and city officials and other interested Bay area parties are invited to attend.

Block S.P. Seat Charges
WASHINGTON. — Southern Pacific railroad's plan to charge from 25 cents to \$1 for coach seat reservations on trains running between San Francisco-Portland and San Francisco-Los Angeles was suspended by the Interstate Commerce commission yesterday. The plan would have gone into effect today. During the suspension the commission will attempt to determine if seat charges are lawful and reasonable.

San Mateans Arrested in Dope Case

NEW YORK. — Two San Mateo men were among those arrested by government agents in the crackdown on one of the largest nationwide narcotics syndicates uncovered in recent years. The ring's operations were so vast that it kept on hand for New York customers, a supply of narcotics sufficient to serve every Manhattan addict for five years. Roy Cohn, assistant U.S. attorney, disclosed yesterday. The San Mateans were Abraham Chalupowitz, 50, and William Levin, 49.

"If cards were compulsory," Felse said, "we could be fairly certain, in advance of registration, of the funds that would be available."

Felse expressed the opinion that after the first year, under a compulsory card set-up, student body fees could be reduced to a point below the present \$15 price.

"The way things are now," he said, "a majority of the students are carrying the load for the dead beats who don't buy a card."

Felse also rated high in his list of advantages to be derived from a compulsory student body fee, the possibility of a new Student Union for San Jose State college.

"We need a new Student Union and we need it bad," he said.

Felse said that in his opinion we could borrow \$750,000 if we had some stable income every year, such as would be available with compulsory ASB cards. "If we can borrow half of the needed funds we can probably get the other half from the State," Felse said.

"The college has the ground now that could be used for a new Student Union," he said.

The graduate manager seemed to think that if we had a new Student Union, it could be made to pay for itself through the activities, such as a store, auditorium and the many other units housed there.

Felse listed the fact that the cards would be on the installment plan, that they would probably be reduced in cost per year and the fact that more money could be allocated to student activities as other reasons why the compulsory student body card would be a good thing.

Tickets Ready For 'Y' Fiesta

Hot tamales will be the word of the day when the Student Y throws their "Fiesta" at 6:30 p.m. tomorrow in the First Methodist church, Fifth and Santa Clara streets, according to Mary Gizdich, dance chairman.

Priced at 60 cents, the dance will feature Mexican food, dancing, and entertainment. "The fiesta is being completely carried out in a Mexican atmosphere," Miss Gizdich stated.

Tickets can be obtained from the Student Y, 272 S. Seventh street.

State Committee Names Dr. Sweeney As New Teacher Ed Council Member

Problems of student teaching will be discussed by a Northern California committee of the California Council on Teacher Education, according to Dr. William G. Sweeney, professor of education and committee member.

He was named to the committee

at the council's spring meeting at a Yosemite hotel last week-end. Dr. J. C. DeVoss, executive dean of general staff, and Dr. C. R. Timpany, assistant superintendent of Santa Clara county schools, completed San Jose representation.

Refining the selective process of administrators and standardizing college accreditation were other meet topics, said Dr. Sweeney.

About 125 representatives of teacher training institutions in California attended.

Classifieds

Classified ads should be placed at the Graduate Manager's office, Room 16. Ads must contain at least 15 words, payable in advance. Charge is three cents a word.

FOR RENT

Men: Co-op, room \$20, Board \$25. 3 meals, 5 days. Near campus. 67 S. Fifth street. CY 5-5661.

Men—Rooms with or without kitchen privileges, parking, telephone & piano. \$15 a month and up. CY 3-1938, 426 S. 7th.

Vacancy in semi-private room. \$15 per month. 360 S. 9th St.

FOR SALE

For Sale or Trade for car, '49 Harley Davidson 45 cu. inch, only 4000 miles. Call CY 3-1330. Ask for "Al."

SJS Forensic Team Will Use 'Direct Clash'

A little used form of debate in collegiate circles will be employed by the forensic teams of San Jose State college and St. Mary's college when they meet tomorrow in Room 153 at 7:30 p.m., according to Mr. Wilbur Luick, director of SJS forensic activities.

Topic of the debate will be: "Resolved, that the libeling of racial and religious groups should be made a civil and criminal offense." Method of discussion will be the "direct clash" type of debating which entails a different approach to the problem that the American standard style most commonly used, Mr. Luick reported.

As indicated by its title, the "direct clash" system allows a more direct conflict of ideas to develop, and requires the use of special arbiters to decide upon points of opposition, Mr. Luick said. He and Professor James Murphy of St. Mary's will act as arbiters. Bill Johnson and Jack Mix will represent the SJS forensic group and will support the affirmative argument.

Survey to Result In Lyke Changes

A survey to determine what is liked and disliked about Lyke, SJS feature magazine, has been completed with varying results, according to Dave Woods, associate editor.

Several suggestions, including those which asked that Lyke be a "free" magazine and that it should contain no advertising, were not feasible to follow at this time," Woods said. However, he pointed out that sections such as Lyke Applauds, Letter from Oxford, and the sports feature will be dropped as a result of adverse student reaction.

Many Lyke features were popular with the students interviewed, Woods stated. The section, Piffereed Pics, and cartoon content will be enlarged as a result of its high student interest.

Must Take Exam!

A recent announcement from the Selective Service agency, under the direction of Major General Lewis B. Hershey, stated that every eligible college student "must take the qualification test and have it in his files."

It is also reported that test study books are being prepared by various publishers and may soon be available to students.

Magnetic Tape Recorder Becomes Teaching Aid

By DAVE GOODWIN

The concept of magnetic tape recording, born in obscurity 51 years ago in Denmark, has experienced a startling regeneration in the past few years to become, among other things, an integral part of modern education.

On the San Jose State college campus, "tape" is used to assist instructors and students in the speech clinic, in recording of campus activities for later broadcast, in recording speeches of famous personalities for future classroom use, and in many forms of musical activity, according to Dr. Richard B. Lewis, director of the SJS audio-visual department and Dr. Edgar A. Willis, in charge of student radio activities at San Jose State college.

Dr. Lewis explained that speech difficulties are corrected much more easily when the student can hear, quickly and with high fidelity, a reproduction of his vocal expression. He reported that tape recording is also a part of music classroom functions in many cases. The recordings of individual musical efforts are immediately available for student criticism when this method is used.

The use of magnetic tape recording is extremely useful in capturing events as they happen on campus and on the national scene, too, Dr. Willis pointed out. Producers of the SJS radio show, "Spartan Review," utilized this method recently when they recorded a rehearsal of the Spartan Revelries and when they interviewed students on campus about the compulsory ASB card question. He revealed that speeches of General Douglas MacArthur and Winston Churchill, along with President Truman's recent address, will be available soon in tape recordings for speech classroom use.

Education is not the only field in which tape recording has found fertile soil for growth, Dr. Willis continued. Commercial communication systems use magnetic tape recording extensively and it has been found to be of great value. One instance reported by Dr. Willis concerned a radio broadcast of the production "Command Decision," Clark Gable, one of the actors, was in Hollywood, while Walter Pidgeon, the other star, was in New York. The problem of distance was solved by "tape" when Pidgeon's voice was blended into an original tape recording of the scenes by Gable. The resulting production was flawless, Dr. Willis said.

Another Hollywood personality, Bing Crosby, was partly responsible

for the boom in tape recording, according to a recent article in Fortune magazine. After the Danish inventor Valdemar Poulsen, had introduced his new magnetic recording system in 1900, the method slipped into obscurity until German development during the 1930's made it commercially acceptable. However, it was not until 1946 that the recording caught on—and this occurred because "Der Bingle" was tired of spending his dinner hour "groaning" to an audience when he could have been eating with his family.

Crosby had noted the success of tape-recorded radio shows used by the armed forces during the war and utilized the new system of transcription to allow his interrupted digestion to proceed undisturbed. What happened since is radio history.

The principle of magnetic tape recording can be explained as follows: First, the microphone changes your voice into a series of electrical impulses of varying intensity, and these impulses go through a magnet which is in contact with the metallic coating on the tape. As the tape travels across the magnet, the metallic coating is magnetized in certain patterns by the electrical impulses set up by your voice. When the tape is played back, the electrical impulses are heard as the same sounds that were transmitted through the microphone.

If elimination of certain parts of the tape recording is desired, the tape may be erased by a procedure similar to the reverse of the recording process.

All in all, magnetic tape recording has become one of modern communication's most valued properties, for it allows great latitude in the capturing of sounds useful to all of us—the words of great statesmen, the sounds of great events—and the reproduction of our own voices.

Bayshore Portion Will Be Freeway

SACRAMENTO, April 30 (UP). The State Highway Commission has notified San Jose and Santa Clara officials of its plans for establishing a portion of the Bayshore highway between Fourth and 13th streets in San Jose as a freeway.

The notification of local officials is preliminary action to establishment of freeways.

A four-lane divided freeway is proposed for an initial program, with provision for ultimate development of six lanes.

Fatal Laughter

PORTERVILLE, Calif., April 30 (UP).—Joe M. Rodriguez, 22, of Porterville, was jailed last night after he allegedly shot and killed a theater patron whose laughter disturbed him.

Spartan Golf Team Loses to Stanford; Face Brones Today

Coach Walt McPherson and his Spartan golf team attempt to advance into the win column again this afternoon when they meet the Santa Clara university link squad at the La Rinconada course.

Over the week-end, the Spartans encountered varying success with their St. Mary's and Stanford opponents. Friday they swamped the Gaels for a 27-0 whitewash victory at the San Jose Country club. Saturday, however, the Spartans receipted for their second loss of the season as the Stanford team garnered an 18½-8½ win on the Indians' rain-soaked course.

San Jose State's Ken Venturi and Jay Hopkins and Stanford's Dick McElyea and Keith Beekman shot 74's to tie for low medalist honors although hampered by the wet links.

In the match's feature duel, Venturi and McElyea golfed to a 1½-1½ tie.

Local Netmen Face COP, USF This Week

Fresh from a tour of the Southland the Spartan tennis squad will battle with the University of San Francisco Friday and then take on a College of Pacific team Saturday.

The locals lost one game on their tour and that was to the powerful UCLA racket wielders last Tuesday, 9-0.

In the Intercollegiate Invitational tournament at Ojai, Calif., last Thursday, Friday and Saturday, the Spartan team was seriously handicapped when ace "Butch" Krikorian became hampered by a pulled muscle and they had to default two matches.

Results of the Ojai tournament: (Open Men's Doubles), Jim Hard and Bob Blackmore def. Bob Phelps and Don Gale (SJS) 6-0, 6-2; (Junior College Div.), Conrad Woods (UCLA) def. Joe Dawkins, 6-1, 6-2; Loren Schwelchewberg (SMJC) def. Lee Jensen (SJS), 6-2, 6-3; (Intercollegiate Invitational div.), Krikorian (SJS) defaulted to Don Eizenberg (USC); Ed Kauder (UCLA) def. Chet Bulwa (SJS), 2-6, 6-4, 8-6.

Doubles results: Krikorian and Bulwa (SJS) def. Martin and Myers, 6-1, 6-4; (quarter finals), Krikorian and Bulwa (SJS) defaulted to Willner and Kauder (UCLA). Last Wednesday's game with the University of Redlands was rained out.

Fresno Meet Off; Invitational Next

Saturday's track meet between the Spartans and Fresno State college was rained out and has been cancelled, according to Danny Hill, athletic publicity director.

The cancellation was necessary because neither college had a free date on their schedules. Coach Bud Winter's squad travels to the Independent Invitational meet at Stockton next Saturday.

Baseball Nine Hits Road For Next Three Games

The Spartan baseball nine takes to the road for the next three games meeting Alameda Coast Guard, Sacramento State college, and the California Bears.

This afternoon they meet the boys in blue at Alameda. Coach Walt Williams has named Lefty Jim Collins to start on the mound.

Collins hasn't seen action since April 21 when he defeated COP, so he should be well rested.

Coach Williams plans to use some men who haven't seen much action in the past few games. They probably will include Frnak Padin, Ralph Cieland, and Rod Fielder.

Glenn Davis has been chosen to pitch for next Friday's game against Sacramento State college. Davis was the victim of the power-hitting Fresno State Bulldogs in his last outing, losing 6-0. The right-hander now has a two-won, two-lost record for the season.

Either Davis or Collins will go when the locals invade the den of the California Bears next Tuesday afternoon.

The Spartans' next home game will be on May 11 when they open a two-game series with the University of San Francisco Dons.

Ski Club Re-elects Cancilla Prexy, Presents Trophies

The San Jose State college Ski club concluded its current season at a recent meeting with election of officers for the coming year and the presentation of individual awards.

Bill Cancilla was re-elected president of the group. Also elected to executive posts were: John Bishop, vice-president; Pat Mason, treasurer; and Holly Hedge, secretary. Ray Johnson was appointed competition chairman and Norma Carter, corresponding secretary and historian.

Trophies were presented to club members who won SJS races which were held at Soda Springs during Easter week. Ken Schillig received the club champion award. Bill Cancilla was awarded the trophy for intermediate champion. Joan Kopfer won the women's championship.

Schillig also was named as the outstanding member and was presented with an honorary life membership to the SJS Ski club.

Grid Veterans Don Outfits For Practice

Last year's Spartan grid veterans joined San Jose State college spring football practice in full equipment yesterday as Head Coach Bob Bronzan sent the squad through a full scale scrimmage.

Although working out with the new candidates, the veterans had limited their only activities to running through offensive patterns in their gym shorts. Yesterday's action was their first attempt at contact work.

Coach Bronzan started the scrimmage with assigned offensive and defensive teams but kept alternating the line-ups in an effort to uncover workable combinations.

Lynn Aplanalp, transfer from Pasadena City college, saw limited action at the quarterback position after suffering a knee injury in Saturday's rugged practice. During the latter scrimmage, Aplanalp stood out with his ball handling, faking and, particularly, his passing.

Jerry Hamilton, a transfer from St. Mary's, and Larry Rice, up from last year's frosh team, handled the majority of signal calling chores at yesterday's workout.

Most of the emphasis at the Spartans' grid practice has been on developing the running game. Two newcomers, Larry Matthews of Monterey college and Gene Goldberg of San Bernardino Valley college, have been impressive with their offensive rushing although Coach Bronzan cautioned that no one Spartan back should be singled out for praise as all have been turning in top performances.

Spartan Frosh Baseballers Win Easily from S.J. High School

The San Jose State college frosh baseball squad, behind the three-hit pitching of Righthander Rich Breen, set down a weak San Jose High school team, 15-4, at Municipal stadium yesterday.

In putting away the cross-campus high schoolers, Breen gave up only three safe knocks, all of them singles. He walked three Bulldog batters and struck out six.

The locals started things booming early, picking up four runs in the first frame. Toby Lombardi reached first on an error by the Bulldog shortstop, Howard Rapp K'ed. Allan Carter clubbed a single into right field, and Manny Rocha walked, loading the bases.

A single by Bill Pitcher pushed two runs across. Maurice Duncan then singled, scoring Rocha and Pitcher, but was out trying to stretch his hit. Milt Manoukian struck out to retire the side.

The Spartans scored three more runs in the second inning, four in the fourth, two in the fifth and two in the sixth. Coach Tom Cure-

ton swept the bench for the afternoon's baseball circus.

The Bulldogs took advantage of three walks plus a pair of singles to pick up three runs in the third. Their fourth marker was claimed in the last stanza on an error and two wild pitches.

Even Ants Must Comply With Army's Red Tape

The fact that many young college stalwarts will soon be donning ill-fitting uniforms of khaki this summer to contribute several years of their lives digging holes in the ground in order to fill up others brings to mind the question: What is the essence of that famed Army commodity, red tape? The answer is not easy to discover. Perhaps an example of said commodity might serve to enlighten prospective tenants of Fort Ord.

An Army officer recently contacted his company medical supply officer concerning the extermination of ants from his offices. He received a reply to the effect that the requested poison would only be issued if the ants to be liquidated were "inside the office." If the ants were outside the building, the poison would have to be obtained from the engineering department.

The harried officer, flicking an ant from the end of his nose, sat down and wrote this historic communiqué: "... It is extremely difficult to determine the intention of the ants we are attempting to exterminate; some live inside and wander outside for food, while some live outside and forage inside for food. It is rather difficult to determine which ant comes from without and is what you might call an engineering ant, and which comes from within and is what would be a quartermaster ant. Some of our ants appear to be going in circles and others apparently are wandering at random with no thought of destination. Such ant tactics are very confusing and could result in a quartermaster ant being exterminated by an engineering poison, or an engineering ant being exterminated by a quartermaster poison, which would be contrary to the letter of regulations, and would lead to extensive investigation and lengthy letters of explanation."

The communiqué goes on to propose a solution to the knotty problem, in which equal parts of quartermaster and engineering poison would be combined to make exterminator acceptable to the ants on the assumption that "... no well bred G.I. ant would eat other than poison issued through the proper channels..."

Of course, such exposes of the nature of Army procedure are rare, and we take this opportunity to inform those who will become G.I. neophytes in the near future of what lies in store for them. Maybe they would like to acquire some of that Government issue poison through proper channels, of course.

Polek Announces Rally Group Plan

Candidates for yell leader or song girl should attend Wednesday evening's Rally committee meeting, according to Fran Polek, rally chairman.

Tryouts for both groups will take place at the Spring Bowl intra-squad football game at the end of this month. Details will be discussed at the 7:30 p.m. meeting in Room 24 tomorrow night, Polek said.

There is a possibility that the song routine might be changed, the Rally committee chairman said. The change will be dependent on the girls who are chosen for the posts. Yvonne Gineste, choreographer, will help the girls learn the routine, Polek added.

Bob Wycoff, Revelries director, was appointed at the last meeting to organize and conduct two campus rallies. The rallies will be held on May 10 and 15 for WSSE and Senior Visitation day.

It's Worth the Walk!

Yes, it's worth walking 5 blocks to ARMSTRONG'S Fountain—where the food and price are right.

Five Spartans Vie for \$300 French Tour

Two awards for a month's tour of France are being offered by the French government, according to Mr. L. B. Newby, head of the Modern Language department.

Five French language majors from San Jose State college will take a competitive examination to determine which student will be eligible for the regional test in San Francisco on Saturday, May 12.

Fred Brown, Julie Alger, Caroline Robins, James De Dou, and Santos Alvarez each will be asked to write a French composition. The author of the best essay, chosen by Mr. Newby, will qualify for the regional exam.

One student from each of the colleges and universities in the Bay area will participate in the regional examination.

The tour, beginning July 5, includes a boat trip to France, return passage by airline, and 100,000 francs (approximately \$300).

While in France, the winners will take part in the festivities honoring the 2000th anniversary of Paris.

Requirements for applicants are that they be over 21 years of age, under 28, and a French language major in an American college or university.

Warn Pushcarters Of May 11 Deadline

Entrants for the Lambda Chi Alpha pushcart relays were reminded yesterday by Jack Shipe, director of relays, that May 11 is the deadline for filing entry forms. The race will be held June 1, Shipe says.

According to Shipe, each entry form must contain the name of the card driver, alternate driver, and names of the six pushers and two alternates. The division the entrants are qualified to enter, and the signature of the designated official of the entering organization also must be on the entry.

Lambda Chi members point out that any male or female on-campus organization or living group is eligible to enter the relays.

As yet unnamed officials will judge both the race, and the unique trophy event to rules set down by the sponsoring organization.

Pay for La Torre

Students are reminded by Bill Lytle, La Torre business manager, that the cash balance on their copies of the yearbook are due May 31 and are payable at the Graduate Manager's office.

PAY BILLS WITH FIRST NATIONAL SERVICE CHECKS

Open a First National Service Check Account with any amount. Only \$1.00 for ten checks. No other charges, no minimum balance required.

Waterfront Area Will Immortalize London's Novels

OAKLAND, Calif., May 1. (U.P.)—Novelist Jack London will be remembered today on the Oakland waterfront where he began his career as a writer and adventurer.

The city of Oakland will dedicate as "Jack London Square" an area on the estuary near the rickety "Last Chance Saloon" where young London jotted down notes on the sailors, fishermen, and other characters he later fictionalized.

London's daughter, Mrs. Bess London Fleming, will be one of the special guests at the 2 p.m. dedication ceremonies.

Joseph R. Knowland, publisher of the Oakland Tribune, will install a bronze memorial plaque donated by the Native Sons of the Golden West.

The dedication of the square is the first step in Oakland's plan to establish a waterfront restaurant.

Swimmers to Practice Today

Plans will be formulated for the coming women's swimming meet with Stanford at a meeting today at the Women's pool; relays, ballet, breaststroke, crawl, and diving will make up the program.

The girls will practice their specialties today starting at 4:15 p.m. in the Women's gym. Free swimming also will be offered at

that hour.

Badminton for beginners will be offered this afternoon at 4:30 o'clock in the Women's gym.

Campus Interviews on Cigarette Tests

Number 18...THE RACCOON

"They can't trick an old grad like me!"

Shades of the roarin' 'Twenties! All duded up in

his ancient benny — but he has modern ideas on testing cigarette mildness! He's tried every "quickie" cigarette test in

the book — and they're not fooling him one bit! He knows for dang-sure that cigarette mildness can't be determined by a cursory sniff or a single, quickly-dispatched puff. He doesn't have to go back to school to know that there is one real test — a test that dispels doubt, fixes fact.

It's the sensible test... the 30-Day Camel Mildness Test, which asks you to try Camels as your steady smoke—on a pack-after-pack, day-after-day basis. No snap judgments needed. After you've enjoyed Camels — and only Camels — for 30 days in your "T-Zone" (T for Throat, T for Taste), we believe you'll know why...

More People Smoke Camels
than any other cigarette!
